

I subscribe to both Sirius and XM Radio satellite services. I want to let you know that I benefit from listening to XM Satellite Radio and its traffic and weather channels. Sattelite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. Please reject the NAB's petition 04-160 and allow XM and Sirius to continue to provide the kind of programming that we demand and deserve.
Thanks for your help. Jim Phillips
